HEALTH INSURANCE STATISTICS

Releases in the Health Insurance Statistics series are designed to present current data from the Medicare program. Two series have been initiated to date—the Health Insurance (HI) series and the Current Medicare Survey (CMS) series which presents current data from a survey of a sample of the Medicare population. The releases include:

Health Insurance Notes

Number	*Title*	*Date*
HI–36	Medicare: General Enrollment Period, 1971	May 26, 1972
HI–35	Medicare: Number of Persons Insured, July 1, 1966–July 1, 1970	May 19, 1972
HI–34	Medicare: Participating Health Facilities, July 1971	February 17, 1972

Reimbursements, 1970

This report, containing data for calendar year 1970, summarizes enrollment and reimbursements by State and county under the Medicare program. Reimbursements made during 1970 are shown for each State in table 1, by county in table 2, and for groups of metropolitan and nonmetropolitan counties by State in table 3. Current reimbursement amounts for the program as a whole are published monthly in the *Social Security Bulletin.*

The health insurance program for the aged makes available two separate but coordinated coverages—hospital insurance (HI), covering nearly all persons aged 65 and over, and supplementary medical insurance (SMI), covering those persons in this age group who enroll voluntarily and pay the required premiums. Reimbursements for hospital insurance and supplementary medical insurance, presented in tables 1–3, represent amounts paid in 1970 to, or on behalf of, insured persons.[1] The amounts are based on information from bills entered in Social Security Administration records through early August 1971 and are listed according to the State and county of the beneficiary's residence. Only payments for covered services provided to enrollees are included in the amounts reimbursed; costs of administration, as well as deductibles, copayment amounts, and noncovered services specified by law, are excluded. Reimbursements under supplementary medical insurance to group practice prepayment plans dealing directly with the Social Security Administration, totaling $24 million in 1970, are also excluded from the reimbursement data. However, the enrollment figures shown in tables 1–3 include about 280,000 members of such plans.

The amounts reimbursed under the hospital insurance portion of the program are based on interim rates that will be adjusted after the end of each provider's accounting year on the basis of reasonable costs of operation; this is also true of reimbursements for home health and outpatient services. During calendar year 1970, such retroactive adjustments totaled over $270 million under hospital insurance and about $62 million under supplementary medical insurance. Other payments under supplementary medical insurance are based on "allowed" (reasonable) charges for medical services determined on the basis of customary charges.

Reimbursement amounts included in this report reflect the date of payment, rather than the date the service was rendered. As a result of the lag in processing bills, an estimated $150–200 million under hospital insurance and about $5–10 million under supplementary medical insurance are not included in the reimbursement amounts. Differences in lags in submitting bills among providers and in making payments among the intermediaries and carriers serving the various geographic areas shown in the tables are, of course, reflected in the amounts reimbursed.

[1] Amounts included in this report are based on all bills processed through August 4, 1971, with approval dates in 1970, plus bills processed from November 5, 1970 through August 4, 1971, with approval dates prior to 1970. The bills for earlier years were received too late to be included in reports covering those years.

PROVISIONS OF THE LAW

THE HEALTH INSURANCE program for the aged, commonly called Medicare, was enacted on July 30, 1965 as Title XVIII of the Social Security Act, and became effective on July 1, 1966. The program makes available two separate but coordinated insurance coverages —hospital insurance, covering nearly all persons aged 65 and over, and supplementary medical insurance, covering those persons in this age group who enroll voluntarily and pay the premium.

Hospital Insurance Program

The hospital insurance program (Part A of Medicare) pays for part of the costs of inpatient hospital and related post-hospital services. It is financed on a self-supporting basis through a tax on a portion of current earnings, paid by employees, employers, and self-employed persons. The proceeds of this tax are placed in the Hospital Insurance Trust Fund for payment of benefits and administrative expenses incurred under the program. General tax revenues are used to defray the costs of providing coverage for persons who qualify for hospital insurance but who are not eligible for monthly social security or railroad retirement benefits.

BENEFITS

Inpatient hospital benefits.—The program pays for up to 90 days of covered services in a participating hospital in a "benefit period" (a period beginning with the first day of hospitalization and ending 60 days after discharge from a hospital or a skilled nursing home). Full payment is made for the first 60 days of hospitalization after a deductible of $52 has been paid. For each of the remaining 30 days in the benefit period, the patient pays a coinsurance amount of $13 a day.

Each hospital insurance beneficiary also has a "lifetime reserve" of 60 additional hospital days, subject to a copayment of $26 a day. These additional days can be used at the patient's option whenever the 90 days covered in a benefit period are exhausted.

The program also pays for emergency services in a nonparticipating hospital. Each nonparticipating hospital providing emergency services elects whether to bill the program or to charge its patients directly. If they bill the program, they are reimbursed on the basis of reasonable costs of covered services rendered. If they bill the patient, he pays the bill and submits the itemized bill to SSA for reimbursement. The reimbursement paid is 60 percent of reasonable charges for room and board and 80 percent of the charges for ancillary services.

Inpatient tuberculosis and psychiatric hospital services are also covered. However, there is a lifetime limit of 190 days of care in a psychiatric hospital. Where an individual is a patient in a participating psychiatric hospital at the time he becomes entitled to hospital insurance, the number of days he was such an inpatient in the 150-day period immediately prior to his eligibility are deducted from his days of entitlement in that benefit period but not from the lifetime limitation.

Covered hospital services include room and board in accommodations containing from two to four beds, nursing services (except for private-duty nursing), drugs and biologicals, and all those services ordinarily furnished by a hospital to its inpatients. The hospital insurance program does not cover the services of physicians (including radiologists, anesthesiologists, pathologists and physiatrists) except for services provided by interns or residents in training under approved teaching programs in a hospital.

The cost of the first three pints of blood (or equivalent amounts of packed red blood cells) furnished a patient during a benefit period is also deductible unless the patient arranges for replacement. Charges for any additional blood are covered under the program.

Post-hospital home health care benefits.—These benefits cover the cost of visiting nurse services and related home health services for as many as 100 visits in the year following the patient's most recent discharge from a hospital or participating extended care facility, provided he has been confined for at least 3 consecutive days in a hospital. A home health plan must be developed by a physician and implemented within 14 days after the patient's discharge from the hospital or extended care facility. The home health care must be for further treatment of a condition for which he received services in the hospital or extended care facility.

Extended care facility benefits.—The program pays for the reasonable cost of all covered inpatient services in participating extended care facilities (ECF) for up to 100 days in any benefit period. Benefits are payable only following discharge from a hospital after a stay of 3 consecutive days or more, and admission to an ECF within 14 days of discharge. Full payment is made for the first 20 days. For each of the remaining 80 days, the patient pays a coinsurance amount of $6.50 a day. (The extended care coinsur-

ance amount is set by law as one-eighth of the inpatient hospital deductible.)

Supplementary Medical Insurance Program

The supplementary medical insurance program (Part B of Medicare) covers physicians' services, outpatient hospital services, additional home health services, other medical services and supplies, and outpatient physical therapy. Individuals 65 years of age and over may enroll in the program regardless of whether they are eligible for social security retirement benefits by paying monthly premiums which are matched by the Federal Government and paid into the Supplementary Medical Insurance Trust Fund for payment of benefits and administrative expenses incurred under the program.

BENEFITS

The SMI program pays for 80 percent of the allowed charges for covered physician services and other medical services after the patient has met a deductible of $50 during a calendar year. For outpatient care and home health services, the program pays 80 percent of reasonable costs after the deductible has been met. Payment for outpatient psychiatric physician services is limited to the lesser of $250 or 50 percent of the allowed charges in any year after the $50 deductible has been met. The sum and percentage are derived from the statutory provision which permits an incurred expense for out-of-hospital treatment of mental illness of only $312.50 or 62.5 percent of actual expenses in a calendar year. Since only 80 percent of allowed charges can be reimbursed, the effective maximum becomes $250.

To preclude the possibility of having to meet a deductible twice in a short period of time, a "carryover" provision is applied. Accordingly, covered expenses that are incurred in the last quarter of the year and counted toward the deductible in that year are also credited toward the deductible for the following year. However, the provisions concerning the deductible and the coinsurance do not apply to the services of radiologists and pathologists furnished to hospital inpatients. "Reasonable" charges for such services are completely reimbursed.

The SMI program pays for physicians' services, including home, hospital, and office visits; services and supplies, including drugs and biologicals that cannot be self-administered, that are furnished as a part of a physician's professional service; diagnostic X-ray tests, diagnostic laboratory tests, and other diagnostic tests; X-ray; radium, and radioactive isotope therapy, including materials and the services of technicians; surgical dressings, splints, casts, and other devices used for reduction of fractures and dislocations; purchase or rental of durable medical equipment, including iron lungs, oxygen tents, hospital beds, and wheelchairs used in the patient's home (including an institution used as his home); ambulance service where the use of other methods of transportation is contraindicated by the individual's condition; prosthetic devices (other than dental) that replace all or part of an internal organ; leg, arm, back, and neck braces; artificial legs, arms, and eyes, including replacement if required because of a change in the patient's physical condition; and 100 home health visits during a calendar year, independent of those provided under the hospital insurance program.

Also covered are hospital services incident to physicians' services rendered to outpatients, and outpatient physical therapy services.

Eligibility

The hospital insurance program.—Almost all persons aged 65 and over are eligible for benefits under the hospital insurance program. Included are those persons in this age group who are entitled to monthly social security cash benefits or payments from the railroad retirement system, regardless of whether they have applied for these cash benefits. During 1970, a person could apply for hospital insurance protection even though he did not qualify for either social security cash benefits or a railroad retirement annuity if (1) he had attained age 65 before 1968, or (2) he would attain age 65 after 1967 with not less than three quarters of social security coverage, whenever acquired, for each calendar year elapsing after 1966 and before the year in which he would attain age 65. However, hospital insurance protection could not go into effect until the individual attained age 65. These two classes of individuals were "deemed insured" under a special transitional provision.

For persons who reach age 65 after 1968, the amount of work credits needed increases by three quarters each year—six quarters are needed by those who reached age 65 in 1969, nine by those who reach 65 in 1970, and so on. However, a person who qualifies for monthly benefits as the dependent or survivor of an insured worker does not need any work credits.

Employees who retired from the Federal Civil Service after July 1, 1960, and who had the opportunity to be covered under the Federal Employees Health Benefits Act of 1959, are ineligible for hospital insurance benefits under the transitional provisions. Also ineligible are aliens with less than 5 years of continuous residence in the United States, and those persons convicted of crimes against the security of the United States.

Hospital insurance protection can be retroactive for as many as 12 months before the month an individual files his application for entitlement. For example, an individual may apply 11 months after he attains age 65 and still be entitled to benefits from the month he attained age 65.

Supplementary medical insurance.—Persons entitled to benefits under the hospital insurance program (Part A), retired Federal employees and persons not eligible for hospital insurance under the transitional provisions may voluntarily participate in the SMI program.

Enrollment.—Individuals may enroll in the SMI program only during specified periods—the initial and the general enrollment periods. The initial enrollment period begins with the third month preceding the one in which an individual attains age 65 and ends 3 months after the month of attainment, a total period of 7 months. If he enrolls during the 3 months prior to the month in which he attains age 65, his coverage is effective with the month in which he attains age 65; if he enrolls during the month he attains age 65, his coverage begins the following month; if he enrolls in any of the 3 months after he attains age 65, his coverage begins from 2 to 3 months after enrollment, depending on how long he waited before enrolling.

The most recent general enrollment period was set between January 1, 1970, and March 31, 1970, for those who did not enroll in their initial enrollment period, or who having terminated their enrollment now wished to reenroll. Comparable periods are set to occur in every year. A person who enrolls during a general enrollment period may receive benefits starting on the first of July following the general enrollment period. An eligible individual must enroll within 3 years after the end of his initial enrollment period or within 3 years after termination of prior enrollment.

A State may enroll otherwise eligible individuals who receive cash payments under public assistance programs if the State requests that a State-Federal enrollment agreement be established and pays the necessary premiums.

Enrollment terminates with the beginning of the month following the month of death. Up to April 1, 1968, railroad retirement beneficiaries and individuals entitled to monthly cash social security benefits could terminate their enrollment voluntarily by notifying the Social Security Administration in writing during a general enrollment period of the desire to withdraw from the program. Under the 1967 amendments effective April 1, 1968, beneficiaries may give notice of withdrawal at any time and their coverage will be terminated at the close of the following calendar quarter. Other enrolled persons may terminate their coverage by withholding payment of premiums or by notifying the Social Security Administration in writing of the desire to withdraw from the program. The enrollee is provided a 90-day grace period for the payment of overdue premiums after which coverage is automatically terminated. An individual who previously has terminated his enrollment may reenroll only in a general enrollment period beginning within 3 years of the date his previous enrollment had terminated. Reenrollment, however, is allowed only once.

Financing the Program

Hospital insurance.—The hospital insurance program is financed on a long-range, self-supporting basis through a separate schedule of increasing tax rates on the first $7,800 of earnings in employment covered under the Social Security Act. The same tax rate applies to employees, employers, and self-employed persons. This rate was 0.60 percent for 1968–1972, and is scheduled to increase until it is 0.90 percent in 1987 and thereafter. The proceeds of this tax and that collected from the railroad retirement system are placed in a Hospital Insurance Trust Fund from which reimbursement for all benefits and administrative expenses incurred under the hospital insurance program is made. The Hospital Insurance Trust Fund is reimbursed from general tax revenues for the cost of providing coverage for the almost 2½ million persons who qualify for hospital insurance under the transitional provisions.

Supplementary medical insurance.—Premiums are paid into the Supplementary Medical Insurance Trust Fund by those persons enrolled for supplementary medical insurance (or on their behalf), and a matching amount is paid from general revenues by the Federal Government.

The premiums of persons receiving social security cash benefits, railroad retirement, or Federal civil service annuities are deducted from their monthly benefit checks. Persons not receiving monthly benefits are billed quarterly for premiums by the Social Security Administration or the Railroad Retirement Board and have a 90-day grace period in which to make payment. Premiums may be paid for as long as a year in advance, and for individuals financially unable to make quarterly payments, arrangements can be made for monthly payments.

The monthly premium during 1969 and the first half of 1970 was $4 a month. The premium rate of the supplementary medical insurance program may be adjusted annually if medical costs rise. Beginning July 1970, it was raised to $5.30 a month.

As previously noted, States are permitted to pay the medical insurance premiums for public assistance recipients aged 65 or over who were receiving money payments under an approved public assistance plan and for all aged persons eligible to receive medical assistance under an approved Title XIX plan.

Administration of the Program

Hospital insurance.—Under the hospital insurance plan, groups or associations of providers, on behalf of their members, may nominate a national, State, or other public or private agency or organization to serve as intermediary in the claims process. A member of an association is free, however, to receive payment from an approved intermediary other than its

association's nominee, if approved by the Secretary and agreeable to the intermediary selected. In addition, a provider may deal directly with the Social Security Administration.

The Secretary may enter into an agreement with a nominated organization if he finds this to be consistent with effective and efficient administration of the hospital insurance program. The intermediary makes payments to providers for covered items and services on the basis of reasonable cost determinations and assists in the application of safeguards against unnecessary utilization of covered services. The agreement may also call for (1) furnishing consultative services to assist providers to establish and maintain necessary fiscal records and otherwise qualify as providers of services, (2) serving as a center for communicating with providers, and (3) making audits of provider records. Hospital insurance intermediaries also make payments for home health and outpatient hospital services covered under medical insurance.

Requests for payment for covered services must be signed by the beneficiary (or someone for him, if he is unable to do so). Payments are made on the basis of reasonable costs for these services to participating providers of services, that is, hospitals, extended care facilities, and home health agencies, that have been certified for participation.

In some instances, hospitals may bill for physician services rendered to inpatients. In these cases, payment is made by the Part A intermediary. Depending on the nature of the billing, funds are transferred from the SMI trust fund to the HI trust fund to cover the cost of these services, or are paid directly from the SMI trust fund.

The intermediary selected by the provider reviews the claims for payment and pays the provider. Actual payment is made on the basis of an interim rate established between the provider and the intermediary. Final settlement based on each provider's operating year is made on the basis of a cost report submitted by the provider, and subject to an independent audit.

No payments can be made to Federal facilities except for emergency services, unless the provider serves as a community institution. In addition, payment cannot be made to a provider for those services it is obligated to render at public expense under Federal law or contract.

Supplementary medical insurance.—Under the medical insurance program, the Secretary may enter into contracts with carriers for the performance of specified administrative functions. The carriers' principal function is to determine whether charges are allowable (reasonable) and to make payment.

The carrier selected by the Secretary determines the allowed charges for bills submitted for each medical care service covered by the program and pays 80 percent of this amount after the $50 deductible has been met.

The allowed charge for the service may be paid to the patient, or the patient may assign the bill for collection to the physician or other supplier of the service, if he is willing to accept assignment. In the former situation, the patient submits an itemized bill to the carrier and is reimbursed; in the latter, the physician or other supplier submits the bill and is reimbursed. When the payment is made directly to the physician (or supplier) on assignment, the allowed or reasonable charge determined by the carrier is the total charge. In both situations, the patient is responsible for the first $50 of the charges for covered services he receives during the year and the amount of the bill over 80 percent of the allowed charges.

The law instructs the carrier to consider the following criteria in determining the "allowed" charge:

> (1) the customary charge for the service generally made by the physician or other person furnishing such services; and
>
> (2) the prevailing charge in the locality by other physicians and suppliers for similar services. The upper limit of the prevailing charge was set at the 83d percentile of the weighted customary charge.

The law also specifies that the "allowed" charge cannot be higher than the charge applicable for the similar service rendered under comparable circumstances to the carriers' own policy holders or subscribers. For 1970, carriers were instructed to maintain allowed charges at the levels existing before 1969.

Carriers also have the authority and responsibility to determine, in a given case, whether a claim is for a covered service and to deny claims for noncovered or excluded items or services. In addition, carriers are to assist in the application of safeguards against unnecessary utilization of services furnished eligible individuals.

Most services covered by the medical insurance program are rendered on a fee-for-service basis. However, services furnished under group practice prepayment plans are normally rendered in return for predetermined premium payments. In recognition of the need for special adaptation of the Medicare payment procedures for services rendered by group practice prepayment plans, the law provides that an organization which furnishes medical and other health services (or arranges for their availability) on a prepayment basis, may elect to be paid 80 percent of the reasonable cost of services in lieu of 80 percent of the allowed charge for such services.

The 1967 amendments to the Social Security Act introduced a time limit on filing of claims. For bills incurred in the supplementary medical insurance portion of the program after March 1968, claims must be filed no later than the close of the calendar year following the year in which the services are furnished. For services provided during the last 3 months of the calendar year, bills may be submitted through the end of the second year following.

Tables

NOTES

Health Insurance for the Aged.—The program, commonly known as Medicare, that pays for part of the costs of hospital and medical services for participating persons aged 65 and over.

Number of Persons Enrolled.—Represents those persons enrolled for coverage in the program, as of July 1, 1970—the midpoint of the calendar year, as shown by information entered in social security records through March 1971.

Hospital and/or Supplementary Medical Insurance.—All persons aged 65 and over who enroll under hospital insurance and/or supplementary medical insurance. This total is larger than the total for hospital insurance because a small number of persons are eligible for medical insurance but not for hospital insurance.

Amount Reimbursed.—Represents amounts paid in 1970 to, or on behalf of, insured persons. Also, included is about $88 million representing bills paid in earlier years but received too late to be included in reports covering those years. The amounts are based on information from bills entered in Social Security Administration records through early August 1971.

Geographic Classifications.—Based on the address to which the enrollee's cash benefit check is being mailed. For persons not receiving such benefits, the mailing address given at the time they applied for health insurance benefits is used. Temporary or permanent changes of residence are reflected in the data to the extent that such changes are reported to the SSA by enrollees.

All Areas: Consists of the United States, Guam, Puerto Rico, Virgin Islands, all other areas, and foreign countries.

United States: Consists of the 50 States, the District of Columbia, and residence unknown.

All Other Areas: Consists of American Samoa, the Canal Zone, Canton Island, Caroline Islands, Mariana Islands, Marshall Islands, Midway Islands, and Wake Island.

County.—The primary divisions of the 50 States are, in general, counties. In Louisiana, however, these divisions are known as parishes. Alaska is divided into 21 economic areas, included here as the equivalent of counties. A number of cities that are independent of county organizations are reported separately in Maryland, Missouri, and Virginia. The divisions in Puerto Rico are called municipios. Guam and the Virgin Islands are not further subdivided.

County Unknown.—Data for a small number of enrollees do not permit identification of county of residence. The number of persons residing in such "unknown" counties are not shown separately but are included in the State totals.

Metropolitan and Nonmetropolitan Counties.—The division of counties into metropolitan and nonmetropolitan groups is based on the list of standard metropolitan statistical areas (SMSA) as classified by the Bureau of the Budget. Except in New England, each SMSA includes a county containing a central city of at least 50,000 inhabitants, based on the 1970 census. In addition, contiguous counties are included in the SMSA if they meet certain criteria of economic and social integration with the central city. In New England, an SMSA consists of towns and cities, rather than counties. However, the data included in this report were available only for counties. Therefore, for New England, the SMSA was replaced by the State metropolitan economic area (SMEA), which is defined in terms of whole counties. Metropolitan counties are those counties included in an SMSA or an SMEA. These counties were further divided into those with the central city of the SMSA and those without the central city. Nonmetropolitan counties are all counties not included in some SMSA or SMEA.

Table 1. NUMBER OF PERSONS ENROLLED IN HEALTH INSURANCE PROGRAM AND TOTAL REIMBURSEMENT FOR HOSPITAL AND MEDICAL INSURANCE BY REGION AND STATE
